TEST — ApartmentCorp Rent Comps — 2026-11-04

GENERATION TEST — SAME-DAY EVIDENCE REPLAY. This file was regenerated from the uploaded recovery bundle. It reuses the genuine November 4 source observations; it is not a second full research pass, a November 10 report, or an emailed report.

41-property review checklist

Fresh-source research covers 41 subject-property tabs and 190 existing market-rate rows. Of 499 requested rent fields: **146 verified numeric rents**, **297 Phone Verify**, and **56 evidence-supported Not Offered**.

This is a review draft, not an all-rents-verified report. Numeric rents are advertised monthly base rents, not guaranteed vacancy or telephone-confirmed quotes. Phone Verify includes pricing, identity or eligibility gaps. No stale price, estimate or bedroom proxy enters the averages.

The input is the approved August 2026 formatted workbook. Subject rents, affordable-comp data and HUD/AMI information remain that baseline and were not re-researched. Colors, fonts, widths and merged ranges are preserved. Updated Market Average benchmarks and labeled visible market-average summaries are synchronized. Open and recalculate in Excel: unchanged Difference/recommendation formula caches may be stale or show errors when an average is Phone Verify.

Individual house/duplex supplements without approved apartment-community comparability are retained for review but excluded from numeric averages. No comps were silently replaced. Detailed identity evidence, price quotations, attempted sources and original excluded findings are included in the accompanying audit package.

- [ ] Resolve ineligible/unverified comps and any duplicate listing identities.

Eligibility / follow-up: Mixed-income limitation: independent report identifies 66 of 330 units as workforce housing for 80%–120% AMI households (https://stpeterising.com/home/move-ins-begin-at-lake-maggiore-mixed-income-housing-development); current official workforce-program page confirms restricted reduced-rent homes remain part of the community. This is not proof all units are restricted, so community eligibility is unverified rather than categorically ineligible, but no advertised unit was independently qualified as conventional market-rate. Both rents withheld accordingly. The

former mobile-home park mentioned in development history is not the current community. Current Apartments.com prices include mandatory fees; baseline amounts were not reused. No telephone confirmation performed.

3BD	$1,500	Phone Verify

Sources checked: Source 1.

Eligibility / follow-up: Preserved the original name and row. Did not silently replace the baseline comp with the similarly named community at 619 Arbor Station Lane or assign its prices. The discovered community appears to lease whole apartments, but market-rate eligibility for the input identity remains unverified because the street address cannot be confirmed. Public official and primary pages were opened in the isolated browser. No phone confirmation performed.

3BD	Phone Verify	Phone Verify

Sources checked: Source 1; Source 2.

Eligibility / follow-up: Historical thin-market/no-listing row retained without replacement. Eligibility remains unverified: no public evidence establishes conventional market-rate Magnolia Terrace in Monticello. The same-name Tallahassee property is described as subsidized and would be ineligible if that were the intended identity, but the city mismatch prevents assigning that classification to this row. No rents inferred from nearby houses, city averages, AMI limits or the historical baseline. No phone confirmation performed.

- [ ] Confirm identity, bedroom mix, base price and availability; resolve Phone Verify.

Eligibility / follow-up: Historical thin-market/no-listing row retained. No public conventional market-rate eligibility evidence for the input name; unverified rather than assuming market-rate. Jefferson Place, Jefferson Arms and manufactured-home Jefferson Pines search results were not substituted. The subject was not researched as a comp. No rents inferred from nearby properties or historical figures; no phone confirmation performed.

18 - Opa Locka

Opa Locka 135th St (SUBJECT) — 2860 NW 135th Street, Opa Locka, FL

Eligible numeric market averages: 1BD: Phone Verify (0/6 comps); 2BD: Phone Verify (0/6 comps); 3BD: Phone Verify (0/6 comps)

Review flags

- [ ] No numeric eligible comparable coverage: 1BD, 2BD, 3BD

Eligibility / follow-up: Original row/name retained. No independent current conventional market-rate eligibility evidence found. Historical prices and nearby-property cards excluded. No phone call or message made. The required deep-research skill was sought before the first search but was unavailable in the sandbox; the task's detailed research rules were followed. Public sources only; no private accounts, workbooks, portals, emails or schedules changed.

Row 14 — Oak Enclave

Eligibility: **ineligible**. All observations checked 2026-11-04.

Bedroom	Previous baseline	Current rent / status
1BD	$1,850	Phone Verify
2BD	$2,250	Phone Verify
3BD	$2,585	Phone Verify

Sources checked: Source 1; Source 2; Source 3.

Eligibility / follow-up: Baseline conventional-market-rate classification was not accepted as current evidence. Current directory states '353 of 420 apartments income restricted': https://www.affordflorida.com/property/oak-enclave-miami-dade . The underlying official report confirms 353 prior approved units and 356 current applicant units, not 353 newly certified units: https://www.floridahousing.org/docs/default-source/programs/live-local-act/multifamily-middle-market-certification/2026-mmm-certified-properties.pdf?Status=Master&sfvrsn=baf2bc4c_1 . Florida Housing explains MMM units have income/rent limits and certification does not guarantee county tax-exemption issuance: https://www.floridahousing.org/live-local-act/multifamily-middle-market-certification . Remaining unrestricted units were not identified in advertisements. Static fetched prices included $1,812/E-213 and an official cached listing showed 1,915; fresh isolated official inventory and Zillow instead agreed on $1,847/C-314. Conflicting cached prices were excluded. Fresh isolated primary browser returned Access Denied without an accessible CAPTCHA; official/Zillow alternatives were usable. One month free and fees excluded. No phone confirmation obtained.

- [ ] Confirm identity, bedroom mix, base price and availability; resolve Phone Verify.

Row 15 — Emerald Bay

Eligibility: **ineligible**. All observations checked 2026-11-04.

Bedroom	Previous baseline	Current rent / status
1BD	$2,250	Phone Verify
2BD	$2,650	Phone Verify
3BD	$2,950	Phone Verify

Sources checked: Source 1; Source 2; Source 3.

Eligibility / follow-up: Prices equal the baseline but were independently found on actual current official listings, not copied. Withheld because unrestricted market-rate eligibility is not established. Official 2026 report shows 301 prior approved units, 311 total units, and 311 current applicant units at 120% AMI: https://www.floridahousing.org/docs/default-source/programs/live-local-act/multifamily-middle-market-certification/2026-mmm-certified-properties.pdf?Status=Master&sfvrsn=baf2bc4c_1 . Current directory: https://www.affordflorida.com/property/emerald-bay-miami-dade .

The lender’s public transaction-page data categorizes Emerald Bay as ‘Market-Rate Multifamily’ (https://dwightcapital.com/page-data/transactions/page-data.json), but financing classification does not establish unrestricted eligibility of the advertised units. Applicant counts do not prove final county tax-exemption issuance. Official dynamic availability was read in fresh isolated contexts. Concessions, deposits and fees excluded; no phone contact made.

Bedroom	Previous baseline	Current rent / status
1BD	$1,300	Phone Verify
2BD	$1,600	Phone Verify
3BD	$2,000	Phone Verify

Sources checked: Source 1.

Eligibility / follow-up: Original row/name preserved; address correction disclosed, not silently applied or replaced. Named Glorieta is an affordable community; no unrestricted advertised units established. Primary listing and public alternative opened. Prices documented only to explain exclusions; no AMI/FMR or historical rent used as a comp amount. No phone confirmation obtained.

2BD	Phone Verify	Phone Verify
3BD	Phone Verify	Phone Verify

Sources checked: Source 1.

Eligibility / follow-up: Not treated as a market-rate replacement at a corrected address. Official CRA lottery document confirms income-qualified housing at the canonical address. Current reporting describes the 342-unit community and AMI-aligned remaining units: https://www.homes.com/news/workforce-housing-development-leasing-in-a-miami-market-dominated-by-luxury-rentals/1063860373/ ; https://floridayimby.com/2026/08/pre-leasing-launches-for-342-unit-lakeview-at-nomi-in-north-miami.html . Mixed-income/program limitations do not prove every unit has the same restriction. No confirmed unrestricted conventional offering found. Availability alone is not proof a requested bed type is not offered. Official FAQ notes first move-ins November 2026. No phone contact made.

- [ ] Confirm identity, bedroom mix, base price and availability; resolve Phone Verify.

Row 18 — Mosaic Apartments

Eligibility: **ineligible**. All observations checked 2026-11-04.

Bedroom	Previous baseline	Current rent / status
1BD	No 1BD	Phone Verify
2BD	No 2BD	Phone Verify
3BD	$2,550	Phone Verify

Sources checked: Source 1; Source 2.

Eligibility / follow-up: Baseline '3BD only' incomplete: current official inventory includes 3BD and 4BD, no 1BD/2BD. Historical reporting explicitly said Mosaic was market-rate without deed restriction: https://therealdeal.com/miami/2023/04/06/redwood-scores-24m-construction-loan-for-opa-locka-rental-project/ . That 2023 statement does not establish current unrestricted eligibility given 2026 MMM applicant evidence: https://www.floridahousing.org/docs/default-source/programs/live-local-act/multifamily-middle-market-certification/2026-mmm-certified-properties.pdf?Status=Master&sfvrsn=baf2bc4c_1 . Government table is an applicant-unit report, not proof of final county exemption or blanket restriction on every unit; classified ineligible because no current advertised unit is qualified as unrestricted market-rate. Search-snippet boilerplate calling the AffordableHousing listing income-restricted was not used as evidence; the actual rendered page displayed voucher acceptance and a specific base-rent panel. Apartments.com exact-name/address searches yielded no usable matching community page. Official/Zillow fallback opened; fresh isolated alternative request blocked without accessible CAPTCHA, while the sandbox browser displayed the public model panel. No message/application submitted and no phone confirmation obtained.

Eligibility / follow-up: Mixed-income/Live Local community, not a claim every unit is restricted. Exact-address directory states '125 of 360 apartments income restricted'; primary 2026 report shows 125 prior units and 200 currently applied-for units (61 at 80% AMI, 139 at 120% AMI). Report is applicant-unit data, not proof that every applied-for unit received a final county exemption. Eligibility / follow-up: The baseline assertion of no income restrictions is contradicted by current public evidence. Primary income-restriction chart and explicitly restricted floorplan names establish ineligibility. The page says restrictions apply to ‘some or all residents’, so potentially mixed inventory exists, but no unrestricted-market-rate eligibility was independently established for any specific quoted unit. All rents are null under the ineligible-community rule. The supplied Midlothian RentCafe category link was read but cannot support this exact Waxahachie property. No replacement comparable and no phone confirmation were used.

Eligibility / follow-up: Current official and primary descriptions explicitly establish 55+ age-restricted active-adult housing, disqualifying this community from the required conventional market-rate comparable set even if its rents are otherwise market-priced. The official URL path contains ‘conventional’, but that software label does not negate the explicit residency restriction. The supplied Midlothian RentCafe category URL was read and is not an exact property source. All three requested rents are null due to ineligibility. Eligibility / follow-up: Existing historical thin-market comp retained, but baseline claim of no income restrictions was not accepted as evidence. Current official pages repeatedly describe ‘Affordable Floor Plans’ and general family/roommate rentals; that language alone proves neither income restriction nor conventional-market eligibility. Searches and owner pages https://www.obrienrealtygroup.com/about-us and https://www.obrienrealtygroup.com/our-team did not establish this community’s eligibility. No inference was made from the absence of a restriction disclosure, and no eligibility policy was borrowed from neighboring Emerald Pointe. All bedroom types are offered; no not_offered statuses are warranted. Fresh primary prices agree with active Zillow record but supersede older extract $1,289/1,355/$1,670; observed prices are documented only, not qualified comp rents. Official https://www.liveatsummerfield.com/apartments/la/harvey/floor-plans was opened in sandbox browser, expanded to all six plans, and displays Please Call for prices. Apartments.com reports built in 2008, conflicting with baseline 1965 vintage. No phone call was made.

Eligibility / follow-up: Preserved the declared name/address and row; did not substitute Ochlockonee Pointe. Shreveport, Louisiana is not a local Quincy, Florida comparable; the baseline's Midway narrative and mileage are inconsistent with the declared identity. Eligibility remains unverified rather than inferring unrestricted status from general apartment marketing or absence of restriction text. The live primary browser page has no priced floorplan section, and Zillow says no available units on Zillow; neither proves bedrooms are not offered. Initial stateless extractions showed conflicting older floorplans/prices; live official browser and RentCafe agreed on observed 1BD $860, 2BD$1,115 and 3BD $1,240, but amounts are withheld pending eligibility verification. Eligibility / follow-up: Ineligible: property-specific government evidence of AMI restrictions and LIHTC overrides the historical baseline claim of no income restrictions. Government article is dated June 13, 2025 and was re-read on the run

date; it is eligibility evidence, not current pricing evidence. Primary listing and official identity both match the declared comp. Official floorplan URL https://www.thereserveatpowerplace.com/Floor-Plans.aspx was read but returned the general community content, including one-, two-, three-, and four-bedroom offerings. Both requested types are offered; ineligibility, not bedroom absence, causes null Phone Verify cells. Current primary listing reports construction in 2025 and 144 units, conflicting with baseline $^{1993}/_{72}$-unit notes. Eligibility / follow-up: Original row and name preserved; current source identity is Bellaview, not Sienna Lake. Supplied RentCafe Sienna Lake URL returned a generic Louisiana search page and was rejected as property pricing evidence. https://www.liveatcopperridge.com/ returned ‘is available on GoDaddy Auctions’. The 2019 article https://www.multihousingnews.com/baton-rouge-properties-trade-for-27m/ is categorized Market Rate, but it is historical eligibility evidence, not current pricing evidence. https://affordablehousingonline.com/housing-search/Louisiana/Baton-Rouge/Copper-Ridge/10112858 labels Copper Ridge ‘Project-Based Rental Assistance’ and ‘Affordable’, verified for 2026, but gives 2050 Lobdell Blvd. rather than the input’s 2080; this address/eligibility conflict was not silently treated as the same property or dismissed. Another Copper Ridge official eligibility page found in search belongs to Kennewick, WA and was excluded. Phone Verify means follow-up required; no telephone confirmation was made. The requested deep-research skill was unavailable in accessible skill locations, so it could not be read before searches. No workbook, account, email, portal, or schedule changes were made.

Eligibility / follow-up: Original plural input name and row retained; singular Bellecour Crossing is the same address, not a substitute comp. Primary Apartments.com was opened and shows base floorplan rents of $699 for 1 Bed/1 Bath, 849 for all three two-bedroom plans, and $949 for 3 Bed/2 Bath, but those figures are deliberately excluded due to explicit income restrictions. https://www.redfin.com/LA/Baton-Rouge/1251-N-Ardenwood-Dr-70806/home/85640976 corroborates Income Restricted. Supplied RentCafe URL is a city-wide search page, not Bellecour evidence. Apartments.com links to official manager https://www.greenalphapm.com/; its public listings page was fetched and opened in the sandbox browser but displayed no property-specific availability or eligibility override. No phone call or private-account access performed.

Eligibility / follow-up: Supplied Preserve at Harveston RentCafe URL returned a generic Louisiana search page and was rejected. Official site is dynamic and was opened in the isolated sandbox browser; all available-unit model tables were expanded read-only. Current live official base figures differ from older extracted snapshots and other rental feeds. Refreshed Apartments.com shows Total Monthly Price, not base rent: 783 for one − bedroom unit 1708 and 1,172 for two-bedroom unit 1805; those totals were not used or reduced by arithmetic. The live official base-rent evidence is recorded but no public explicit unrestricted market-rate classification or qualifying-income policy was found after property-specific searches and management-site checks. Ordinary apartment marketing and absence of an income-restricted badge were not treated as sufficient eligibility proof. No numeric rents returned until eligibility is verified; no phone confirmation made.

Eligibility / follow-up: Original row and propertyName retained. Supplied Sienna Lake RentCafe link resolves to a Louisiana search page, not this comp. https://www.liveatcopperridge.com/ says the domain ‘is available on GoDaddy Auctions.’ The 2019 MHN article is categorized Market Rate but is historical, not sufficient current eligibility evidence. Affordable Housing Online labels a same-name Copper Ridge ‘Project-Based Rental Assistance’ at 2050 Lobdell Blvd, not the input’s 2080; this address discrepancy was not silently resolved or used to declare this comp ineligible. Same-name Kennewick, WA eligibility site was rejected as a different community. Current eligibility requires Phone Verify. No calls or contacts were made. Eligibility / follow-up: Supplied Preserve at Harveston RentCafe link resolves to a Louisiana search page, not this comp. Official dynamic catalog was opened in the isolated browser, allowed to load, and every available-unit table expanded; current official minimum observations were 768 for a genuine 720 − sf one − bedroom and 1,157 for a two-bedroom, both 15-month advertised terms. Studio's erroneous '1 Bed' metadata was not used as a genuine one-bedroom proxy. Initial extracted official and Zillow prices were stale/different; fresh pages and live browser evidence superseded them. Apartments.com fresh page shows total monthly prices, including a separately stated 15 risk management fee; totals were not used or arithmetically converted. Zillow's fresh two − bedroom 1,122 conflicts with official $1,157. Official site and A.C. Lewis public management pages describe ordinary apartment leasing but do not establish affirmative market-rate eligibility or absence of income restrictions; absence of a restriction label was not treated as proof. Former official domain https://www.liveatcopperridge.com/ states it ‘is available on GoDaddy Auctions’; no usable current official floorplan site was located. Eligibility / follow-up: Mixed-income eligibility limitation: https://la.urbanize.city/post/63-apartments-debut-fairfax-district states the completed 639 N. Fairfax Avenue building offers '63 residential units - seven designated as affordable housing'. Earlier https://la.urbanize.city/post/mixed-income-development-rising-fairfax-avenue described six very-low-income density-bonus units. These historical reports establish a restriction concern, not current rent evidence. The community is not labeled wholly ineligible because it also has conventional rental units, but unrestricted status of the lowest current advertised one-bedroom was not publicly demonstrated. Official site advertises luxury apartments and individual units, not student-per-bed rentals. Apartments.com, official site and dynamic unit detail, and identity-confirmed Zillow were opened. Zillow independently showed 1BD 1BTH A unit 204, 1 bed/1 bath, $2,488, Dec 8. The $500 first-month Look and Lease concession was not applied. No phone call or confirmation occurred. Eligibility / follow-up: Mixed-income eligibility limitation, not a blanket finding that all 63 apartments are restricted. The 2018 development article documents seven affordable apartments; the 2017 construction article at https://la.urbanize.city/post/mixed-income-development-rising-fairfax-avenue said 'six units of very low income housing in exchange for density bonus incentives'. These historical sources establish a restriction concern, not current pricing. The current official luxury marketing and public listings do not identify the program status of the lowest advertised unit, so eligibility remains unverified and no numeric rent is accepted. Initial extracted Apartments.com rents were stale relative to the live browser; the live page matched Zillow and Redfin. No historical $2,916 carryforward, effective-rent calculation, or interpolation was used. No phone confirmation was obtained.

Oak Hills (SUBJECT) — 10260 Preston Lane, Jamestown, CA

Eligible numeric market averages: 2BD: $1,420 ($^{1}/_{6}$ comps); 3BD: Phone Verify (0/6 comps)

Review flags

- [ ] No numeric eligible comparable coverage: 3BD
- [ ] Multiple explicit Market Avg benchmarks refreshed consistently: [19, 20]
- [ ] Duplicate comparable address/URL or subject-address match requires review; row-weighted average may overrepresent duplicate listings
- [ ] Unverified/ineligible comparable needs replacement review; no property identity substituted

Row 13 — Quail Hollow Apartments

Eligibility: **market_rate**. All observations checked 2026-11-04.

Bedroom	Previous baseline	Current rent / status

Eligibility: **unverified**. All observations checked 2026-11-04.

Bedroom	Previous baseline	Current rent / status
2BD	$1,795	Phone Verify
3BD	Not Offered	Phone Verify

Sources checked: Source 1; Source 2.

Eligibility / follow-up: Historical thin-market individual house, not a conventional apartment-community comparable. Former listing describes a homeowner's twelve-month lease, but current unrestricted market-rate rental eligibility could not be independently confirmed because the listing is removed and the manager's current public inventory does not list it. Eligibility remains unverified. Official public inventory: https://snappshot.co/properties?embed=true&pm=95f1856d-79ab-4a1e-a524-30a2b1fc54bb. Neither the baseline $1,795, archived$1,695 nor Zillow estimates were accepted. No phone call or private portal access occurred.

- [ ] Confirm identity, bedroom mix, base price and availability; resolve Phone Verify.

Row 15 — 11240 CA-49 Unit A/B

Eligibility: **unverified**. All observations checked 2026-11-04.

Bedroom	Previous baseline	Current rent / status
2BD	Not Offered	Phone Verify
3BD	$2,100	Phone Verify

Sources checked: Source 1; Source 2.

Eligibility / follow-up: Historical thin-market duplex supplement; current unrestricted market-rate rental eligibility is unverified. Exact source identities were resolved without replacing this row. Redfin removal evidence: https://www.redfin.com/CA/Sonora/11240-California-49-95370/unit-A/apartment/204352423 and https://www.redfin.com/CA/Sonora/11240-California-49-95370/unit-B/apartment/198831206. Official Step Up public inventory was read through its embedded Snappshot link and contains neither A nor B. Apartments.com's page title labels A 'Room for Rent' while its body describes an entire duplex; that classification conflict is another reason not to qualify it silently. Baseline $2,100 and surviving$1,950 were withheld pending current-offer and whole-unit confirmation.

- [ ] Confirm identity, bedroom mix, base price and availability; resolve Phone Verify.

Row 16 — 951 Shaws Flat Rd

Eligibility: **unverified**. All observations checked 2026-11-04.

Bedroom	Previous baseline	Current rent / status
2BD	Not Offered	Phone Verify
3BD	$2,195	Phone Verify

Sources checked: Source 1.

Eligibility / follow-up: The source researcher identifies an individual duplex supplement rather than a conventional apartment community; advertised availability also conflicts. Retain for review, but exclude from apartment-community averages pending explicit approval.

- [ ] Confirm identity, bedroom mix, base price and availability; resolve Phone Verify.

Row 17 — 21767 Longeway Rd

Eligibility: **unverified**. All observations checked 2026-11-04.

Bedroom	Previous baseline	Current rent / status
2BD	Not Offered	Phone Verify
3BD	$2,495	Phone Verify

Sources checked: Source 1; Source 2.

Eligibility / follow-up: Historical thin-market individual house supplement. Current unrestricted market-rate rental eligibility is unverified because no active manager offering was found. Official Step Up public inventory was opened via https://stepuprentals.com/index.php/rentals/ and its Snappshot embed, without accessing resident/owner portals. Removed listing, archived prices and Zillow estimates were not used as rent evidence. No comp substitution or phone confirmation.

- [ ] Confirm identity, bedroom mix, base price and availability; resolve Phone Verify.

Row 18 — 20400 N Sunshine Rd

Eligibility: **unverified**. All observations checked 2026-11-04.

Bedroom	Previous baseline	Current rent / status
2BD	Not Offered	Phone Verify
3BD	$2,800	Phone Verify

Sources checked: Source 1; Source 2.

Eligibility / follow-up: Historical thin-market individual house supplement; current unrestricted market-rate rental eligibility remains unverified. The archived description has an ordinary twelve-month homeowner lease, but no active qualified rental offering was found. Official manager public inventory and identity-confirmed Zillow fallback were read. Do not use baseline $2,800, archived asking rent, deposit or estimated rent. No replacement comp, phone confirmation or private-account access.

- [ ] Confirm identity, bedroom mix, base price and availability; resolve Phone Verify.
- [ ] Approve this property and confirm benchmark/summary agreement.

Eligibility / follow-up: Historical thin-market luxury upper-bound outlier retained, not replaced. Eligibility is unverified, not assumed conventional merely because a past monthly price existed. The furnished one-month terms create a short-term comparability limitation but do not independently prove an excluded housing category. Historical $6,900, stale search snippets, Rent Zestimate and refinance-payment figures were rejected. Duplicate/possibly conflicting Zillow record https://www.zillow.com/homedetails/16555-Charles-Otter-Dr-Sonora-CA-95370/242156826_zpid/ was attempted but unavailable. Eligibility / follow-up: Public official and Apartments.com sources were fetched and inspected in the isolated browser. No affirmative current property-specific non-income-restricted/market-rate qualification policy was found; Synco investment-management context and ordinary advertised prices alone were not treated as conclusive eligibility proof. The official fee guide contains generic language about possible affordability programs, which does not itself establish that this community is restricted. Live pages differ materially from static extraction and baseline pricing; discrepancies are disclosed rather than selecting an unsupported lowest rent. Official follow-up number: 336-476-5900. No phone contact occurred. The required deep-research skill was unavailable in the exposed sandbox skill locations; research followed the task's explicit public-source verification requirements.

Eligibility / follow-up: Canonical property page resolved from the supplied city-page link and cross-checked with the official Harvest page in the isolated browser. Harvest calls its offerings 'affordable housing', but that generic phrase is not proof of income restrictions; conversely no affirmative property-specific market-rate/nonrestricted eligibility evidence was found. The public Harvest application describes ordinary credit, employment, and landlord screening but does not conclusively establish this property's current restriction status. Official $1,075 starting advertisement conflicts with current specific-model prices; no concession or fee-adjusted rent was calculated. Follow-up leasing number on official site: 336-475-7642. No phone contact, viewing request, or application occurred.

Eligibility / follow-up: Reject as market-rate based on two opened exact-address LIHTC sources: https://affordablehousingonline.com/housing-search/North-Carolina/Thomasville/Sherman-Street-Apartments/10033678 and Affordable Housing Hub. The former identifies verification in 2019; the latter displays November 3, 2026 information verification but its tax-credit details may originate in historical program records. No official evidence of release from restrictions was located, so the conventional baseline classification was not accepted. Ordinary minimum-income wording and voucher acceptance on the active rental ad do not override the LIHTC designation. Current restriction/exit status needs direct confirmation; no such phone confirmation occurred. AI-generated generic property descriptions and county AMI/FMR estimates were not used as rents.
