Zillow Automated Estimate	\$4,737,500
Suggested Market Value Range	5, 200, 000–5,800,000

Key Observations

1. **Priced competitively for the area** — At 1,289/sqft, the subject is below the comparable average of 1,377/sqft, positioning it as a value play near \$25M+ homes.
 2. **Complete renovation adds significant value** — Purchased for \$2.3M in 2020 and completely rebuilt. The renovation quality (Thermador, Calacatta marble, smart home, ADU) justifies the premium over the 2020 basis.
 3. **Lot size is the constraint** — At 8,359 sqft (0.19 acres), the lot is on the smaller side for Brentwood. Larger lot comps (6.25M–7.6M) command premiums specifically for land value.
 4. **Strong market conditions** — Brentwood homes priced correctly are selling at or above list in 1–32 days. The area's sale-to-list ratio of 100.5% suggests the subject could achieve full ask.
 5. **ADU/income potential** — The flexible guest suite/ADU adds value that most comps don't offer, potentially supporting the upper range of valuation.
 6. **Fire risk consideration** — The property has a $\frac{5}{10}$ fire factor (6% chance of wildfire in 30 years), which is moderate for the area but worth noting for insurance purposes.

Brentwood Market Context (2026)

- Brentwood Park's 10 biggest sales in H1 2026 totaled ~\$121.9M
 - Entry point to Brentwood Park: ~\$7M+
 - Correctly priced homes selling in 1–32 days
 - Overpriced homes taking 96 days to 18+ months, closing 20–30% below original ask
 - Land value drives the market — buyers underwrite lots, not kitchens
 - Off-market activity is significant at the top of the market
