

Compensation Proposal

Brandon Rose — Apartment Corp

Date: May 21, 2026 **Presented to:** Owner / CEO, Apartment Corp

Background

I was hired as a Personal Assistant to the CEO at 30/*hour*(62,400/year). The scope of my actual work has operated at the level of a Director of Operations — 12 custom web applications built and deployed, a full employee training program, automated financial reporting, and a complete property operations infrastructure across 43+ properties in 5 regions. I am now being transitioned into Robert's position, which adds COO-level responsibilities and requires expert-level proficiency in Notion, Monday.com, ClickUp, PSI Safe, and Yardi.

The market rate for a Director of Operations in property management in Los Angeles is 116,000–**147,000/year**. The proposal below reflects a fair and below-market ask given the value I have already delivered and continue to execute.

Compensation Proposal

1. Base Salary

| 85,000/*year*—**40.87/hour**

This is the lower-mid range of the Director of Operations market rate for Los Angeles — well below the market ceiling for the combined scope of work I am performing and the COO responsibilities I am absorbing.

2. Company Vehicle — 2027 GMC Hummer EV

I am trading in my 2018 Ford F-150 Raptor (estimated trade-in value: 23,000–26,000) and making a cash down payment on a new vehicle. I am asking that the company take ownership of the resulting monthly vehicle payment.

Payment Estimates — 2027 GMC Hummer EV

Vehicle	MSRP	After Trade-in & Down	72-Month Payment	84-Month Payment
Hummer EV Pickup 2X (base)	\$99,895	\$67,895	\$1,154/mo	\$1,021/mo
Hummer EV Pickup 3X (top)	\$107,995	\$75,995	\$1,292/mo	\$1,143/mo
Hummer EV SUV 2X (base)	\$96,000	\$64,000	\$1,088/mo	\$963/mo
Hummer EV SUV 3X (top)	\$105,000	\$73,000	\$1,241/mo	\$1,098/mo

Assumptions: Trade-in at 24,500avg+7,500 cash down = \$32,000 total down. APR: 6.9%.

The vehicle would be used for company-related travel, property visits, and all driving responsibilities associated with the role.

3. Real Estate Listing — Office Property

I propose that I secure a **residential listing agreement for the property Apartment Corp currently offices out of**, which carries an estimated market value of **\$3,500,000**. I will handle the listing under my active California Real Estate License (License No. 02102301) at a commission rate of **1.75–2.0%**.

Projected Commission Income:

Commission Rate	Sale at \$3,500,000	Sale at \$3,300,000	Sale at \$3,200,000
1.75%	\$61,250	\$57,750	\$56,000
2.00%	\$70,000	\$66,000	\$64,000

This commission income will be **supplemented by additional earnings from other real estate deals** I bring in. The company benefits from having an in-house licensed agent handle a transaction that would otherwise go to an outside broker entirely.

Total Compensation Package

Component	Annual Value
Base Salary	\$85,000
Company Vehicle Payment (est. 1, 000–1,150/mo)	12, 000–13,800
Listing Commission — Office Property (est. 1.75% of \$3.5M)	\$61,250
Additional Real Estate Deal Income	TBD
Total Year 1 Compensation (floor)	\$158,250–\$160,050

Market Context

Role	Market Rate (Los Angeles)
Director of Operations (Property Mgmt)	116, 000–147,000/year
COO (Property Management)	\$158,000+/year

This proposal lands at the **entry point of the COO market rate** for Los Angeles — which is precisely the role I am being asked to grow into. It is a fair, performance-aligned package that rewards the value I have already delivered while giving the company a clear, below-market path forward.
