

A P A R T M E N T C O R P

AI-Powered Operations Infrastructure Proposal

A comprehensive blueprint for integrating PropertyMax.ai 2.0,
ClickUp, and Claude AI across our full 60+ property portfolio.

EXECUTIVE SUMMARY

Apartment Corp manages 60+ properties across 9 states with a team of 146 staff — yet today our operations run on fragmented systems with no unified intelligence layer. This proposal outlines a three-platform architecture that eliminates that fragmentation permanently.

60+

Properties Managed

9

States Nationwide

146

Team Members

5

Regions

PropertyMax.ai 2.0

The daily operations platform for all regional managers, property managers, and assistants. 13 integrated apps. One login.

ClickUp

The leadership command layer for Brandon, Nicole, Robert, Marc, and regional managers. Cross-portfolio visibility, compliance tracking, and strategic projects.

Claude AI

The intelligence layer connecting both platforms. Vacancy analysis, call scoring, compliance automation, leaderboards, and portfolio reporting — all automated.

PROPERTYMAX.AI 2.0 — THE OPERATIONAL CORE

PropertyMax.ai 2.0 is the single login point for every manager, regional director, and assistant across all 60+ properties. It replaces multiple legacy systems with one unified AI operating layer.

13 INTEGRATED APPS IN THE GREEN BAR

KEY INSIGHT: PropertyMax 2.0 already has an AI Bot built in for property-level tasks. Claude AI supplements this at the portfolio leadership level — giving Marc, Nicole, Robert, and Brandon cross-property intelligence that no individual property manager can generate alone.

CLICKUP — THE LEADERSHIP COMMAND LAYER

THE RULE: If it happens at one property → PropertyMax 2.0. If it spans multiple properties or needs leadership action → ClickUp.

THE TWO-LAYER AI STRATEGY

LAYER 1 — PROPERTY LEVEL

PropertyMax 2.0 AI Bot

Used by: All 60+ Property Managers

- ▶ Draft tenant response emails
- ▶ Answer lease questions
- ▶ Fill maintenance request details
- ▶ Local prospect follow-ups
- ▶ Unit-level data entry assistance
- ▶ Day-to-day property Q&A

VS

LAYER 2 — PORTFOLIO LEVEL

Claude AI

Used by: Brandon · Nicole · Robert · Marc · Regional Managers

- ▶ Portfolio vacancy analysis (all 60+ props)
- ▶ 5 Golden Questions call scoring
- ▶ NSPIRE inspection prep automation
- ▶ Monthly training leaderboard generation
- ▶ Monday morning executive KPI brief
- ▶ Vendor COI compliance validation

12 AUTOMATIONS — THE COMPANY RUNS ON AUTOPILOT

01

Vacancy > 10% → Urgent Leasing Task

Property crosses threshold → ClickUp urgent task + regional manager Outlook alert. 48hr deadline.

02

NSPIRE Date → 60/30/14/2-Day Prep Sequence

Inspection logged in PM 2.0 → Claude generates prep checklist → 4 tasks auto-created in Compliance space.

03

Call Score < 70 → Coaching Task

Phone Portal recording → Claude scores 5 Golden Questions → below threshold → coaching task for regional manager.

04

Monday 7AM → Portfolio KPI Brief

Every Monday → Claude reads Vacancy App → 5 -region brief → Leadership ClickUp task + email to Marc/Nicole/Brandon/Robert.

05

COI Expiring 30 Days → Renewal Alert

Compliance Space trigger → Claude drafts renewal request → Ethan + Mercy notified. No expired COI vendor gets paid.

06

Sensor Alert → Emergency Maintenance Task

IoT alert from PM 2.0 → ClickUp emergency task instantly → Ethan + regional manager within 2 minutes.

07

AppWork Overdue → Weekly Escalation

Weekly AppWork export → Claude flags overdue orders → Ethan gets unified summary with all Yardi-property backlog.

08

1st of Month → Accounting Close Checklist

Auto-creates Genesis reports, Webster reconciliation (due 5th), BofA reconciliation, PSI Safe filings — all assigned.

09

1st of Month → Training Leaderboard Email

Claude pulls quiz scores + call scores + conversions → ranks all managers → leaderboard email to all 5 regional managers.

10

Purchase > Threshold → Approval Task

PM 2.0 Purchasing request → Claude checks vendor COI → if valid, creates ClickUp approval task for Ethan/Nicole.

11

Every Other Friday → Payroll Checklist

Bi-weekly recurring → Helen Guei (LA payroll) + NY Menowitz team. New hire auto-adds payroll setup subtask.

12

Missed Prospect Call → Callback Task + Script

Phone Portal missed call → ClickUp task in property list → Claude generates 5 Golden Questions callback script. Due: 2hrs.

TRAINING & PERFORMANCE — THE 5 GOLDEN QUESTIONS SYSTEM

PropertyMax 2.0 Training Hub

Built by Brandon Rose — already live with quiz system, video modules, and admin portal.

- ✓ Dashboard Overview
- ✓ CRM — Directory
- ✓ Collections & Rent
- ✓ Marketing & Leasing
- ✓ Phone Excellence
- ✓ Maintenance Requests
- ✓ Prospects Pipeline
- ✓ Call Recordings

The 5 Golden Questions

Every prospect call scored by Claude. Score 0–100. Triggers coaching or recognition.

- Q 1** Prospect captured & appointment set?
- Q 2** Move-in timeline identified?
- Q 3** Unit preferences & needs gathered?
- Q 4** Callback confirmed if no appt set?
- Q 5** All contact info entered in CRM?

COMPLIANCE & INSPECTIONS — ZERO-FAILURE SYSTEM

⚠ REAC-NSPIRE inspection failures can result in loss of HUD Section 8 contracts — eliminating guaranteed rent income for entire properties. This is our highest-stakes compliance area.

AUTOMATED NSPIRE INSPECTION PREPARATION SEQUENCE

90-DAY IMPLEMENTATION ROADMAP

PHASE 1

Foundation

Days 1–14

- 1 Create ClickUp workspace
'Apartment Corp Operations'
- 2 Build Compliance Space
with all NSPIRE dates entered
- 3 Build 5 Regional Spaces
one List per property (60+)
- 4 Build Leadership & Strategy
Space — invite exec team
- 5 Set up Claude Project:
Apartment Corp Portfolio Intel

PHASE 2

Connect

Days 15–30

- 1 Build Training Space —
one task per manager (all 60+)
- 2 Zapier: Vacancy > 10%
→ ClickUp urgent task
- 3 Zapier: NSPIRE date
→ 4-stage prep sequence
- 4 Zapier: Sensor alert
→ Emergency task (2 min)
- 5 Accounting & Finance Space
+ Maintenance Operations

PHASE 3

Intelligence

Month 2–3

- 1 Phone Portal → Claude
5 Golden Questions scoring
- 2 Vacancy App: Add Claude
Analyze button (API)
- 3 Monthly leaderboard
auto-generation activated
- 4 Remaining 8 automations
built and tested
- 5 Full SOPs documented
in PM 2.0 Manuals section

◆ Maximum impact in minimum time · No disruption to current PropertyMax 2.0 operations · Each phase delivers immediate standalone value

THE TEAM — ROLES IN THE NEW SYSTEM

Brandon Rose

SaaS Director

Owns ClickUp workspace, Claude integration, Vacancy App, Training Hub, and all technology strategy.

Nicole Chriqui

Operations Manager

Reviews ClickUp Leadership Space daily. Approves escalations from all 5 regions. Compliance oversight.

Robert Sagarang

SaaS Director

Co-owns Training Space. Monitors training leaderboard. Manages Yardi → PropertyMax migration tracker.

Ethan Cowles

Operations

Owns Maintenance Space + Compliance. Receives all sensor alerts, AppWork escalations, and COI renewals.

Gennady Prilutsky

Compliance

Manages all NSPIRE inspection sequences in ClickUp Compliance Space. Ensures zero inspection failures.

Jeremy Samler

IT

Owns Technology Space. Manages Horizon VDI, Help Desk queue, IT tickets. Supports ClickUp setup.

NEXT STEPS

Ready to Build.

The infrastructure is designed. The tools are in place.

All that remains is execution — and we start this week.

1

Create ClickUp Workspace

Apartment Corp Operations — invite exec team first. Build Compliance Space with all NSPIRE dates.

2

Activate Claude Project

Build the Portfolio Intelligence project — all company context loaded once, available forever.

3

Launch Vacancy App Claude Integration

Highest revenue impact automation. Add the Analyze button — 20 lines of code, immediate ROI.
