PURPOSE OF THESE SCHEDULES

These schedules aggregate, by entity, the total cost of each type of depreciable expenditure listed on each separate schedule, and the total cost of each type of depreciable expenditure listed on each separate schedule, and the total cost of each type of depreciable expenditure listed on each separate schedule. Each schedule shows:

- SECTION 1: How the total cost basis is allocated across MACRS recovery periods (5yr, 7yr, 15yr, 27.5yr) across all properties.
- SECTION 2: Accumulated depreciation under the prior straight-line method (per tax return) vs. the new cost segregation method.
- SECTION 3 (where applicable): Building-by-building cost allocation detail
