

BOCA CIEGA TOWNHOMES

HURRICANE SEASON PREPAREDNESS NOTICE

Dear Residents,

Hurricane season is here, and now is the time to prepare yourself, your family, and your household for the possibility of severe weather, tropical storms, hurricanes, flooding, power outages, and emergency evacuations.

Attached you will find important hurricane preparedness information to help you develop a plan before an emergency occurs. We strongly encourage every household to review this information carefully and take the necessary steps to prepare in advance.

Please remember that during a declared State of Emergency, management and maintenance personnel are also required to follow local emergency orders and seek shelter for their own safety and the safety of their families. As a result, staff may not be available to respond to maintenance requests, emergency calls, or resident concerns while emergency conditions exist.

Residents are responsible for planning ahead and ensuring they have adequate supplies and resources, including:

- Drinking water and non-perishable food for several days
- Prescription medications and medical supplies
- Flashlights, batteries, and portable phone chargers
- Important documents stored in a waterproof container
- Pet food and supplies, if applicable
- Transportation plans and evacuation arrangements if ordered by local authorities

If an evacuation order is issued, please follow all instructions provided by local emergency management officials. Do not remain in your apartment if authorities direct residents to evacuate.

Before a storm approaches, please secure all outdoor furniture, decorations, bicycles, grills, planters, and any other loose items that could become airborne and cause injury or property damage. Residents should also monitor local news, weather reports, and emergency alerts for the latest information.

Following a storm, management and maintenance staff will assess the property as soon as conditions are safe and local authorities permit travel. We appreciate your patience during

this process, as restoring services and addressing damage may take time depending on the severity of the storm.

Preparation is the best protection. Taking steps now can help keep you and your family safe and reduce the impact of an emergency.

Thank you for your cooperation and commitment to keeping our community safe during hurricane season.

Sincerely,

Boca Ciega Management Team

BOCA CIEGA PARTNERS
3401 & 3797 37th Street S., St. Petersburg, FL 33711

We have now entered the official hurricane season in Florida and meteorologists are predicting low frequency but high intensity storms. Now is the time to make sure that you are prepared by determining any risks to your home and update your emergency plans and supplies.

MAKE A PLAN: A key way to cope with a disaster is to have a plan. Following an emergency or disaster, you may lose access to basic services, such as power and water, and be subject to limited or no access to essentials like food and water. The Florida Department of Emergency Management provides an interactive online tool, [Make A Plan | Ready.gov](https://www.ready.gov/plan) (<https://www.ready.gov/plan>) to help families and businesses stay prepared. This useful tool allows you to answer a series of questions and create a plan customized for you and your family. The site also has useful materials on pet safety and safeguarding documents and valuables.

Attached to this email are recommendations from the Florida Dept. of Health for **Before the Storm Safety** and **After the Storm Safety** for your review to aid in your plan preparation.

Additionally, the **FEMA Guide to Documenting and Insuring Your Property** is attached to help assist you in protecting your property.

EMERGENCY SUPPLIES: The Florida Division of Emergency Management recommends that you maintain a well-stocked emergency preparedness kit to last you and your family for a minimum of seven days. Each individual or family disaster supply kit differs based on personal needs. Review the attached **Disaster Supply Checklist** for the items to include in your kit.

Taking the time to get prepared now will help reduce stress later when access to supplies is limited due to demand as the storms approach.

AFTER THE STORM SAFETY

Emergency Information: 1-800-342-3557
floridadisaster.org

SAFE WATER

For drinking, cooking, washing wounds and brushing teeth, use bottled water, boiled water or disinfected water.

7-8 drops
(about 1/8 tsp.)
bleach per
gallon of water.

DISINFECTING

1. Add 8 drops of plain unscented house hold bleach (4-6% strength) or 7 drops of high strength bleach (8.25% strength) per gallon of water.
2. Mix and let stand for 30 minutes.
3. If the water is cloudy after 30 minutes, repeat once.

FOR BOIL WATER NOTICES

Boil for 1 minute to kill organisms.

FLOOD WATER or DIRTY WATER

No one should play in flood water.

Never drive through flooded areas. Turn around, don't drown!

Soak dirty toys in clean, disinfected water.

WASH YOUR HANDS OFTEN

Use soap and safe water.

Wash hands for 20 seconds before eating, after using the toilet and when cleaning and handling things dirtied by floodwater or sewage.

Keep open cuts or sores clean.

With clean hands, apply antibiotic ointment. If redness, swelling or drainage develops, see a doctor.

FOOD

Keep refrigerator and freezer doors closed to maintain the cold temperature.

FREEZERS: Food is safe in a full freezer for about 48 hours and in a half-full freezer for about 24 hours, if the door remains closed. Food is safe if it has ice crystals or if it's at 40° F or below. To avoid leaks, empty the ice out of your freezer before it melts.

REFRIGERATORS: Food in an unopened refrigerator is safe for about 4 hours. After that time, throw out perishable food: meat, poultry, fish, soft cheeses, milk, eggs, leftovers and deli items.

Don't eat from bulged or opened cans.

Clean unopened cans dirtied by flood water: remove labels and, using clean, disinfected water, soak the cans for at least 30 minutes. Assume that home-canned foods are unsafe.

Never taste a food to determine its safety.

Breastfeeding is best for babies.

If breastfeeding, continue to breastfeed often. For formula-fed infants, use sanitized bottles and nipples. Discard any prepared formula that baby has not drank within one hour. If water is safe, prepare powdered formula with clean water. If safe water is not available: Use ready-to-feed (RTF) formula. Any opened RTF formula that is not used within an hour should be refrigerated or discarded.

CARBON MONOXIDE (CO) POISONING

It's invisible, odorless and tasteless gas. It can cause tiredness, weakness, chest pains, shortness of breath, upset stomach, vomiting, headaches, confusion, impaired vision, loss of consciousness and death.

Prevent CO poisoning:

Never use gas-powered generators inside. Keep portable generators or gasoline engines at least 20 feet away from open windows, doors, window air conditioners, or exhaust vents.

Don't burn charcoal inside or leave any gas-powered engine running in any enclosed or partially enclosed space. Install battery-powered or plug-in CO alarms (with battery backup) in your home.

Suspect CO poisoning?

Open doors and windows, turn off gas appliances, go outside and call 911 or the Poison Information Center at 1-800-222-1222.

AVOID FIRE DAMAGE

HEAT EXHAUSTION WARNING SIGNS

Headache. Fainting, feeling tired, weak or dizzy. Heavy Sweating. Muscle Cramps. Paleness. Nausea and vomiting.

HEAT STROKE Symptoms:

Confusion, altered mental status, slurred speech, loss of consciousness (coma), hot, dry skin or profuse sweating, seizures, very high body temperature. Heat Stroke can be fatal if treatment is delayed.

Keep cool.

Drink cool, nonalcoholic beverages; take a cool shower, bath or sponge bath; wear lightweight clothing; and rest in an air-conditioned room.

Use battery-powered lanterns and flashlights.

If you must use candles, put them in safe holders away from curtains, paper, wood or other flammable items.

STANDING WATER BREEDS

MOSQUITOES

Cover your skin.

Wear shoes, socks, long pants and long sleeves. Mosquito spray is not safe for children under 2 months old, use mosquito netting to protect them. Fix broken screens on windows, doors, porches and patios.

Throw away storm debris as soon as possible.

Check and maintain your swimming pool's chemistry.

Empty plastic swimming pools.

Drain standing storm water.

Drain water from garbage cans, house gutters, buckets, pool covers, coolers, toys, flower pots or any other containers where water has collected.

SPRAY BARE SKIN AND CLOTHING WITH REPELLENT.

Use spray with DEET, picaridin, oil of lemon eucalyptus or IR3535. Follow label instructions.

09/01/19

BEFORE THE STORM SAFETY

LEARN MORE: weather.gov/wrn/hurricane-preparedness

IF YOU MUST EVACUATE

Have a plan in place for evacuation. Know the location of your nearest public evacuation shelter.

Special needs shelters are for those with disabilities or who require medical care that exceeds basic first aid.

Know the location of the special needs shelter closest to you.

Bring change of clothing: rain gear, toiletries, sleeping bags, blankets, pillows, books and any special dietary needs.

Have a pet? Make sure your shelter accepts them. Have a leash and collar, two weeks of food and water, bowls, a crate and medications ready, along with veterinary records. For cats, kitty litter and an appropriate container.

Fill your car with gas as soon as possible. Power outages will prevent gas pumps from working.

Charge your cell phone and any other electronic devices you may need.

Have some cash and important papers, like insurance policies, in a waterproof folder or container.

PERSONAL HEALTH

An ANSI-compliant first aid kit that includes:

Compresses

Adhesive Bandages

First Aid Tape

Antiseptic Wipes

Gauze

Pain Relievers
(Aspirin, Acetaminophen
or Ibuprofen)

Hand Sanitizer

Latex Gloves

Have a 30-day supply of any **prescription medications** you or your family requires on a daily basis.

Prepare a list of your family's doctors' names and contact information.

Also include a list of **personal medical conditions** for appropriate family members in case of emergency.

For pets that require specific medications, have a 30-day supply on hand.

EVACUATION ✓ LIST

- ☐ Shelter location
- ☐ Special needs shelter location
- ☐ Change of clothing
- ☐ Rain gear
- ☐ Toiletries
- ☐ Sleeping bags, blankets, pillows
- ☐ Books or other reading material
- ☐ Special dietary needs
- ☐ Pet supplies and medication
- ☐ Car filled with gas
- ☐ Charged cell phone
- ☐ Cash and important papers

PERSONAL HEALTH ✓ LIST

- ☐ First aid kit (ANSI-certified)
- ☐ 30-day supply of medications
- ☐ Doctor contact information
- ☐ List of medical conditions
- ☐ Pet medications

HOME BASE PLANNING

Bottled water is a must for drinking, cooking, brushing teeth, etc. You need at least 1 gallon per person per day.

Supply of canned food* or ready-to-eat foods like peanut butter. Have a manual can opener on hand.

** Check expiration dates and rotate stock as needed.*

For infants, have a supply of ready-to-eat formula, sanitized bottles and nipples. Breast feeding should continue.

For pets, have enough food and water on hand, a leash, chew toys, bowls, etc.

A battery or hand crank radio keeps you informed about road closures, storm surge and mandatory evacuations.

Have a **fully-charged cell phone** and other electronic devices you may need.

Battery-powered flashlights or lanterns (one for each family member) plus extra batteries for each.

Candles should be placed in safe holders away from curtains, paper and anything else that may catch fire.

A gas-powered generator must never be used indoors, in a garage, within 20 feet of windows or window air conditioner.

A battery-powered **carbon monoxide (CO) alarm** installed to prevent CO poisoning.

Other items you'll need: Fire extinguisher, duct tape, plastic garbage bags, scissors, heavy duty gloves.

Cover your skin: Wear lightweight long pants and long-sleeved shirt and use insect repellent that contains DEET, picaridin, or oil of lemon eucalyptus. Mosquito spray is not safe for children under 2 months old, use mosquito netting to protect them.

Check for and repair any torn or broken screens on windows, doors, porches and patios.

Empty plastic pools and turn over anything that may collect standing water.

HOME BASE ✓ LIST

- ☐ Bottled water
- ☐ Canned, non-perishable foods
- ☐ Manual can opener
- ☐ Infant ready-to-eat formula
- ☐ Sanitized bottles and nipples
- ☐ Food and water for pets
- ☐ Leash, chew toys, bowls, etc.
- ☐ Battery or crank weather radio
- ☐ Candles, safe holders, matches
- ☐ Gas-powered generator
- ☐ Battery-powered flashlights
- ☐ Battery-powered lanterns
- ☐ CO alarm installed
- ☐ Fire extinguisher
- ☐ Duct tape
- ☐ Plastic garbage bags
- ☐ Scissors
- ☐ Heavy duty gloves
- ☐ Long pants, long-sleeved shirts, etc.
- ☐ Insect repellent
- ☐ Repair torn and broken screens
- ☐ Empty plastic pools

DISASTER SUPPLY KIT CHECKLIST

General

- ☐ Two week minimum supply of medication, regularly used medical supplies, and a list of allergies
- ☐ A list of the style, serial number, and manufacturer information of required medical devices
- ☐ Batteries
- ☐ Flashlights
Do not use candles
- ☐ NOAA Weather Radio
Battery operated or hand cranked
- ☐ Cash
Banks and ATMs may not be available after a storm
- ☐ Cell phone chargers
- ☐ Books, games, puzzles or other activities for children

Phone Numbers

- ☐ Maintain a list of important phone numbers including:
County emergency management office, evacuation sites, doctors, banks, schools, veterinarian, a number for out of town contacts, friends and family

Clothing

- ☐ Rain gear such as jackets, hats, umbrellas and rain boots
- ☐ Sturdy shoes or boots and work gloves

Special Needs Items

- ☐ Specialty items for infants, small children, the elderly, and family members with disabilities

First Aid

- ☐ First Aid Manual
- ☐ Sterile adhesive bandages of different sizes
- ☐ Sterile gauze pads
- ☐ Hypoallergenic adhesive tape
- ☐ Triangular bandages
- ☐ Scissors
- ☐ Tweezers
- ☐ Sewing needle
- ☐ Moistened towelettes
- ☐ Antiseptic
- ☐ Disinfectant wipes
- ☐ Hand sanitizer
- ☐ Thermometer
- ☐ Tube of petroleum jelly
- ☐ Safety pins
- ☐ Soap
- ☐ Latex gloves
- ☐ Sunscreen
- ☐ Aspirin or other pain reliever
- ☐ Anti-diarrheal medicine
- ☐ Antacid
- ☐ Laxative
- ☐ Cotton balls
- ☐ Q-tips

Food and Water

- ☐ Food
Nonperishable packaged or canned food and beverages, snack foods, juices, baby food, and any special dietary items to last at least 7 days
- ☐ Water
1 gallon per person per day
- ☐ Non-electric can opener
- ☐ Paper plates
- ☐ Napkins
- ☐ Plastic cups
- ☐ Utensils

Important Documents

- ☐ Insurance cards
- ☐ Medical records
- ☐ Banking information
- ☐ Credit card numbers
- ☐ Copies of social security cards
- ☐ Copies of birth and/or marriage certificates
- ☐ Other personal documents
- ☐ Set of car, house, and office keys
- ☐ Service animal I.D., veterinary records, and proof of ownership
- ☐ Information about where you receive medication, the name of the drug, and dosage
- ☐ Copy of Will

**Items should be kept in a water proof container*

Vehicle

- ☐ Keep your motor vehicle tanks filled with gasoline

Pet Care Items

- ☐ Pet food and water to last at least 7 days
- ☐ Proper identification
- ☐ Medical records/microchip information
- ☐ A carrier or cage
- ☐ Muzzle and leash
- ☐ Water and food bowls
- ☐ Medications
- ☐ Supplies for your service animal

DOCUMENT AND INSURE YOUR PROPERTY

FEMA

Your home, your personal belongings, and your business are meaningful and valuable assets. If a disaster strikes, having insurance for your home or business property is the best way to ensure you will have the necessary financial resources to help you repair, rebuild, or replace whatever is damaged. Yet, more than half of all homeowners in the United States do not carry adequate homeowners insurance to replace their home and its contents should a catastrophic loss occur. Now, before a disaster strikes, take the time to:

DOCUMENT
YOUR
PROPERTY

UNDERSTAND
YOUR OPTIONS
FOR COVERAGE

ENSURE
YOU HAVE APPROPRIATE INSURANCE
FOR RELEVANT HAZARDS

Not all insurance policies are the same. Coverage amounts, deductibles, and payment caps can vary significantly. Consult with your insurance professional to be sure your policy is right for you. It is also important to review your policy annually to remind yourself of your coverage and to make any updates based on new purchases, renovations, increases in property value, or increases in costs to rebuild or replace items.

**DOCUMENTING
YOUR PROPERTY
AND SAFEGUARDING
RECORDS**

INVENTORY YOUR HOME OR BUSINESS.

Regardless of the type of coverage you buy, maintaining a detailed inventory of your property's contents will assist you if a disaster strikes. Your inventory will help you prove the value of what you owned, which could speed your claim processing, and will provide documentation for tax deductions you can claim for your losses. An up-to-date inventory can also help you to determine the correct amount of insurance to purchase.

You can take photos or videos to help you record your belongings, but be sure to also write down descriptions, including year, make, and model numbers, where appropriate. For valuable items, you may want to have an appraisal to determine the item's worth. Be sure to store your inventory somewhere it can be easily accessed after a disaster.

KEEP VITAL RECORDS IN A SAFE PLACE.

Store paper copies in a waterproof and fireproof box, safe, or bank deposit box. Leave copies with trusted relatives or friends. Secure electronic copies with strong passwords and save them on a flash or external hard drive in your waterproof box or safe.

STORE POLICY NUMBER AND CONTACT INFORMATION NEARBY.

Keep your policy number, your insurance professional/company phone number, and claim filing instructions in a secure, convenient location.

HOMEOWNER: A homeowner's policy generally provides the following areas of coverage:

- **Dwelling**—coverage for your house;
- **Other Structures**—coverage for structures such as garages, decks, and fences;
- **Personal Property**—coverage for items such as furniture, clothing, and appliances;
- **Loss-of-Use**—compensation if you need to relocate temporarily due to covered damage;
- **Personal Liability**—coverage for accidents occurring on your property; and
- **Medical Protection**—payments for a person who is injured on your property.

If you live in a manufactured home, in a condominium, or on a farm, there are policies specifically designed for these types of residences. For example, policies for condominiums primarily cover contents with a provision for the portions of your home that are your responsibility to maintain or repair, as stated by your condominium association.

Your bank or mortgage lender may have minimum insurance requirements as a condition of your loan, but be sure to carry enough coverage for **your** needs.

RENTER: Renters insurance policies can include the following coverage types:

- **Personal Property**—coverage for items such as furniture and clothing;
- **Loss-of-Use**—compensation if you need to relocate temporarily due to damage;
- **Personal Liability**—coverage if sued due to accidental injury to others;
- **Medical Payments**—payments for a person who's injured on your property; and
- **Property Damage to Others**—coverage if you accidentally break or damage someone else's property.

Most responsible landlords and professional property management companies will require proof of renters insurance when a lease is signed.

BUSINESS: If you own a business, you may need to purchase business (or commercial) insurance to protect your business property and employees. The size of your business (as measured in revenue and number of employees), the type of business, and your business location will determine the appropriate types of insurance. Note that home-based businesses may not be covered under homeowners insurance policies, so having business insurance is critical if you run a small business out of your home.

An insurance professional can help you customize your policy based on your particular needs, such as insuring specialized equipment. Standard business policies generally include the following types of coverage:

- **Property**—protection of your physical business location, such as a store, and its contents;
- **Liability**—payment for medical costs and other obligations if someone gets hurt on your business property or you or your employees cause property damage, including legal defense costs if you are sued; and
- **Business Interruption, or Business Income**—coverage for lost revenue in the event that a business needs to close due to fire, burglary, or another covered disaster; assistance making rent and utility payments; and coverage for operating your business from a temporary location.

An insurance professional can assist a business owner with these additional types of commercial coverage:

- **Business Vehicle**—automotive insurance specifically designed for business vehicle use;
- **Workers' Compensation**—coverage that provides cash benefits and/or medical care for employees who are injured or fall ill as a direct result of their job;
- **Flood Insurance**—coverage designed for damage to a business property and its contents caused by flooding, which is not typically covered under general business insurance;
- **Cyber Liability**—protection against cyber risks and costs, including data loss or corruption, identity theft, extortion, and reputation recovery; and
- **Terrorism**—coverage for buildings, equipment, furnishings, and inventory damaged or destroyed in a terrorist attack.

The insurance industry calls the cause of loss, such as fire or theft, a "peril." Be sure to check for which perils your policy lists. A homeowner's policy may provide coverage for different perils for the dwelling and for personal property. The policy may also have different deductibles based on the peril.

To have appropriate and adequate coverage for your home or business, it is important for you to consider the perils for your area. Homeowners, renters, and business owners who live in areas at high risk for losses from a particular peril may pay a higher cost for coverage. **Always** check your individual policy for details. In general, according to the Insurance Information Institute, homeowners insurance policies cover the following potential perils:

- Civil unrest
- Explosions
- Falling objects
- Fires/Wildfires
- Hail
- Hurricanes, but not flooding
- Malfunctioning plumbing, air conditioning, heating, and sprinkler systems
- Theft
- Tornadoes, but not flooding
- Vehicular damage
- Volcanoes

Flood and Earthquakes: Most homeowner and business insurance policies **do not cover** damage from earthquakes and floods. Talk with your insurance professional if you are at risk for flooding or mudflows, including flooding caused by hurricanes or earthquakes. Basic flood insurance covers structural damage to your home or business building, including your air conditioner, furnace, and water heater. Flood insurance also covers associated cleanup costs. Home and business owners can purchase additional coverage for the building's contents. Note that flood damage to your vehicle is typically covered by your auto insurance's comprehensive coverage. Other important information to know about flood insurance includes:

- Flood insurance is available to homeowners and renters through the National Flood Insurance Program in participating communities. Keep in mind that a policy purchased today will take 30 days to go into effect. For more information, visit floodsmart.gov or call 1-888-4FLOODS.
- Separate policies are also needed for coverage against losses from earthquakes.

If you are unable to find an insurance company willing to offer a policy that meets your needs for the perils you may face, contact your state insurance department for information on what coverage is available in your state from an involuntary market/shared market or a state-backed plan.

KNOWING YOUR SETTLEMENT OPTIONS

Familiarize yourself with the settlement types available for your dwelling and personal property and choose the one that best meets your needs. The cost of your policy and the claim amount you receive will vary depending on the type of settlement you choose.

Replacement Cost: This is the cost to replace all belongings or rebuild your home at current market rates. "Guaranteed" or "extended" replacement cost policies account for pricing surges in supplies and labor after a major disaster. Homeowners can also purchase additional replacement cost coverage to account for the cost of complying with updated local building codes. For replacement cost coverage, it is important to have an accurate assessment of how much it would cost to rebuild your home or to replace your belongings. Replacement cost settlements may not be available for older homes.

Functional Replacement Cost or Market Value Coverage: This is the cost of repairs made with modern materials to provide the functional equivalent (e.g., a plaster wall is repaired with drywall), or if the damage is a total loss, the payment amount is the market value of the home.

Actual Cash Value: Your insurance company will reimburse you by estimating the current value of your home and belongings, including depreciation. For example, if you purchased a large high-definition television 5 years ago, you will receive the estimated value of a 5-year-old television.

Stated Value: This is a pre-determined, fixed amount listed in your policy.

QUALIFYING FOR DISCOUNTS

Ask your insurance professional about potential discounts on the cost of your policy. Some insurers offer discounts for the following:

- Purchasing homeowners/renters and auto insurance from the same provider;
- Installing smoke detectors, burglar alarms, sprinklers, or other improvements designed to mitigate particular hazards, such as wind shutters or reinforced roofing;
- Having a membership in a professional, alumni, or business group;
- Being a senior or retiree; and
- Being a long-term policyholder.

FILING A CLAIM

If you sustain damage to your home, property, or vehicle, take the following steps to help make the claim process go smoothly:

- **File Claims Promptly.** Many policies have time limits on when you can file a claim.
- **Save Receipts.** Keep receipts for any construction or hardware supplies you purchase, as well as hotel and restaurant expenses should you need to relocate temporarily.
- **Take Pictures and Video.** Record damage to your home, personal property, or vehicle. Keep copies for your records and to share with your insurer.
- **Work With Your Adjuster.** An adjuster will likely come to your home to survey damage. Cooperating with your adjuster can save time and assist you in receiving your settlement promptly.

ADDITIONAL INFORMATION

- Visit [ready.gov/prepare](https://www.ready.gov/prepare) to learn more about specific risks and what protective measures to take before, during, and after a disaster.
- For additional information about preparing your home to better withstand disasters, as well as recovering, repairing, and rebuilding following disasters, visit the Insurance Institute for Business & Home Safety at disastersafety.org.
- To download a homeowner's guide to natural disasters, including ways to reduce potential damages and premiums, visit flash.org/homeownersinsuranceguide.
- For information on insurance regulations in your state, contact your state insurance commission. A map linked to each state's insurance commission website is available at naic.org/state_web_map.htm.
